Italian Renaissance Collection

Borrowed from the Italian stone craftsman's time-honored traditions, Basalite® has created a line of interlocking paving stones that will transport you to the ambiance of that place and time. The Italian Renaissance Collection recreates the textured surface and hand-cobbled appearance of stone slab roads once naturally antiqued by carriage wheels and horses' hoofs; plazas and courtyards timeworn by generations of footsteps. Traditional large rectangles are complemented by two smaller sizes and shapes that may be positioned randomly at installation. Rich with texture, shape, and color that occur in nature, the Italian renaissance Collection will complete any space or hardscape plan you may design with long-lasting beauty and dignity. Hues from the russet of autumn leaves to the rich umber of loamy soil allow you to create the visual effect you seek.

Although every attempt has been made to display realistic product photographs, color may vary due to the printing process. It is recommended that actual product samples be requested, as variations in colors and shades of color on all units, as well as aggregate exposure, are inherent in all integrally-colored concrete products. No claims will be allowed regarding variations in any of the products shown.

Specifications

Style: Square
 Size: 5.5" x 5.5"
 Thickness: 60 mm
 Weight: 6 lbs
 Units/Pallet: 512
 Sq. Ft./Pallet: 107

Style: Rectangle
 Size: 5.5" x 8.25"
 Thickness: 60 mm
 Weight: 8 lbs
 Units/Pallet: 384
 Sq. Ft./Pallet: 121

Style: Mega
 Size: 8.25" x 11"
 Thickness: 60 mm
 Weight: 19 lbs
 Units/Pallet: 160
 Sq. Ft./Pallet: 102

Patterns

Interlace-1

80% Rectangle and 20% Square.

Random-1

40% Mega, 20% Rectangle and 40% Square.

Random-2

29% Mega, 42% Rectangle and 29% Square.

Square Running Bond-1

100% Square.

Rectangle Running Bond-1

100% Rectangle.

Herringbone-90 Degree

100% Rectangle.

Installation

1. Excavate unsuitable, unstable or unconsolidated subgrade material and compact the area which has been cleared. Backfill and level with dense graded aggregate suitable for base material (typically 3 to 6 inches for pedestrian and light vehicular traffic, 6 to 12 inches for heavy vehicular and industrial) or as otherwise directed by site engineer/architect/landscape architect.
2. Install edge restraint using concrete curb, concrete toe or edging.
3. Place bedding course of sharp normal weight screening or concrete sand to a uniform depth of approximately 1" leveled to grade.
4. Install Basalite Pavers hand tight with joints approximately 1/8".
5. Where required, cut stones with an approved cutter to fit accurately.
6. Tamp pavers with mechanical vibrator uniformly level true to grade and free of movement.
7. Fill voids in joints by sweeping dry fine sharp sand over pavers.

Colors

Venice

Naples

Milan

Positano

Sienna

NOTE: Custom colors are available by special order; please allow sufficient lead time. For more information please contact your local Basalite Representative.
